Dear Mr. Ciavattieri:

I being a staunch supporter of a clean environment, is in complete accord with the Environmental Protective Agency , on the proposed incineration of the polychlorinated biphenyls from the hot spots in the Acushnet River Estuary, and the incineration taking place at a shoreline facilities as designated by the United States Environmental Protection Agency.

For those whom are critical and in opposition to this plan I would kindly urge them to bring forth documents that would give credence to their expertise or basic knowledge in the environmental field where hazardous or toxic waste is concerned either organic or inorganic.

Respectfully Yours  
Gaspar Pereira
